

# MARINE SCIENCE DAY

Visitor Center at Sailwinds Park East  
Saturday, June 9, 2007  
10:00am - 12:00pm

## Come Visit and Learn About Marine Science

10:00am-12:00pm

### ~ Horn Point Laboratory Touch Tank

See and touch some Chesapeake Bay aquatic creatures.

### ~ Oyster Exhibit

Learn about oysters and their environment. See baby oysters under a microscope.

### ~ Finfish Aquaculture Exhibit

See live clownfish (like Nemo). Learn about hatchery efforts to breed these fish in captivity. Adopt-a-sturgeon!! Learn about Atlantic sturgeon restoration efforts for this endangered species in the Chesapeake Bay .

10:15am

**Seminar**, Dr. Bill Boicourt, UMCES-Horn Point Laboratory, "Climate Change: What's in Store for the Eastern Shore?"

11:00am

**Seining** at the beach for kids. See what kind of creatures are found in the Choptank River.

11:15am

**Seminar**, Dr. Roger Newell, UMCES-Horn Point Laboratory, "Why Do We Need More Oysters?"

**Free guided Horn Point Laboratory tours at 10:00am and 1:00pm. For information and directions, go to <http://www.hpl.umces.edu/tours>**
